Professional Summary

Entry-level Python Full Stack Developer (BCA, Completed April 2026) with hands-on experience in Python, Django, Flask, React.js, MySQL, HTML, CSS, JavaScript, and REST API development. Built real-world projects including MedCare Hub, a full stack healthcare management application, and a personal portfolio website, demonstrating strong command of MVC/MVT architecture, database design, and responsive UI development. Proficient in Git and version control, with a solid understanding of the software development lifecycle. Known for strong problem-solving ability, quick learning, and genuine passion for building efficient, scalable applications. Eager to contribute technical skills and fresh perspective to a dynamic development team.

Education

Sri Krishna Arts and Science College – Bharathiar University — Coimbatore, Tamil Nadu
Bachelor of Computer Applications (BCA) – Recently Completed, CGPA: 6.9/10 | Jun 2023 – May 2026

Nachiar Vidyalayam Matric Hr Sec School — Pollachi, Tamil Nadu
Higher Secondary Certificate (HSC), Percentage: 82% | Jun 2022 – Apr 2023

Technical Skills

Frontend Technologies: HTML5, CSS3, Bootstrap, JavaScript, React.js

Backend & Programming: Python, Django

Database: MySQL

Developer Tools: Git, GitHub

Soft Skills: Problem Solving, Teamwork, Communication, Time Management

Experience

Python Full Stack Developer Intern — IDM TechPark
Coimbatore, Tamil Nadu | Jan 2026 – Present

- Developing web applications using React.js, Python (Flask), and MySQL as part of a full stack development training program
- Building responsive frontend pages and integrating backend functionalities with database operations
- Practicing software development concepts including UI development, database management, and application testing
- Collaborating on projects using Git and GitHub for version control

Projects

MedCare Hub — Python, Django, MySQL, HTML5, CSS3, JavaScript, Bootstrap

- Developed a full-stack healthcare management web application using Python, Django, and MySQL.
- Implemented secure user authentication and role-based access for Patients, Doctors, and Administrators using Django Authentication.
- Built modules for appointment booking, doctor management, patient registration, medical records, and appointment scheduling.
- Performed CRUD operations using Django ORM and integrated MySQL for efficient database management.
- Designed a responsive user interface using HTML5, CSS3, Bootstrap, and JavaScript to enhance user experience.
- Followed the MVC (MVT) architecture of Django and implemented form validation, session management, and secure data handling.

GitHub Profile Analyzer — React.js, Bootstrap 5

- Developed a responsive React single-page application (SPA) that fetches and analyzes GitHub user profile information
- Architected modular components including Login, SearchBar, ProfileCard, RepoList, and StatsChart
- Integrated Chart.js to visualize profile statistics such as repositories, followers, following, and public gists
- Implemented React Hooks (useState) for state management and clean data handling

Energy Consumption Forecasting System — Python, Machine Learning, Flask, IoT, Data Visualization

- Designed an IoT-integrated system for real-time energy data collection and monitoring
- Applied machine learning techniques to forecast future energy consumption patterns
- Built an interactive dashboard for energy data visualization and prediction analysis
- Handled data preprocessing, model training, and result visualization using Flask

Online Bug Tracking and Reporting System — MySQL, HTML5, CSS3, JavaScript

- Built a full-stack web application to log, track, and manage software bugs across project teams
- Implemented user authentication, bug status management, and reporting dashboard
- Improved database performance using optimized MySQL queries and joins

Table Reservation and Food Ordering System — MySQL, HTML5, CSS3, JavaScript

- Designed and developed a restaurant table booking and food ordering web application
- Implemented shopping cart functionality, order management, and CRUD operations using MySQL

Certifications

AWS Cloud Practitioner

Oracle Cloud Machine Learning

Google Cybersecurity Certification

Microsoft Security Analyst

NPTEL Soft Skills

Core Java & JDBC

JavaScript – FreeCodeCamp

Additional Information

Languages: Tamil (Native), English (Professional Proficiency)

Achievement: 3rd Place – State-Level Malkhamb Competition, Chennai
